Flow Test Permit Application City of Mount Clemens

Water Flow Testing Policy Effective May 10th, 2017

Purpose:

Provide a uniform policy for the flow testing of water mains and fire hydrants to determine the suitability of available water pressure and flow for customers and requiring fire suppression (sprinkler) systems supply or other high volume water requirements.

Procedure:

1. Application for flow testing shall be submitted to the Community Development Department.
2. Community Development issues permit and collects \$100.00 fee.
3. Community Development notifies Utilities Department of permit issuance.
 - a. Forward copy of permit and application to Utilities Department.
 - b. Utilities coordinates time and date of flow test (8 AM – 1 PM).
4. Water plant is notified by water and sewer maintenance.
5. Customer requiring the flow test provides a contractor to perform the test using his own equipment.
6. Water and sewer maintenance staff will perform inspection and oversight to assure protection of water distribution lines and appurtenances. They will verify all valves are properly closed at the end of the test.
7. The customer or his contractor will provide a copy of the flow test results to the Utilities Department at:

Public Utilities Department
